NOTE.—3½% Modified Preliminary Term Reserve adopted January 1 1912; Full Reserve
owed at end of 15th Year.

MINNESOTA MUTUAL LIFE INS. CO., St. Paul, Minn.

Accelerative Option. — Cash value of dividend additions or accumulations may be used to pay up policy or mature it as endowment.

Beneficiary. — May be made irrevocable.

Cash Values. — After three premiums, within one month after default. American 3½% Modified Preliminary Term (Ill. Std.) reserve, without surrender charge. Payment of cash value may be deferred 60 days.

Change of Plan. — Higher premium form allowed (except in Continuous monthly income), by payment of difference in premiums at 6% compound interest, but not less than reserve difference.

Disability. — For varying extra premium, life and endowment policies will provide prior to age 60, for waiver of premium and payment of monthly income of \$10 per \$1,000, beginning immediately upon proof of total and permanent disability (disability not obviously permanent regarded as permanent after 90 days duration) and continuing during disability until maturity; no reduction in insurance. Agreement does not cover disability from war service. Limit, \$25,000.

Dividends. — End of first year and annually thereafter; first conditioned upon payment of second premium. Options: (a) cash; (b) reduce premiums; (c) accumulate at not less than 3½%†, withdrawable at any time; (d) purchase participating paid-up additions payable with face of policy. (a) is automatic option. Dividend additions increase values, thereby being applied automatically to any premiums under terms of automatic Extended Insurance provision.

Double Indemnity. — For extra premium, policy will provide, prior to age 60, for payment of double face of policy in event of accidental death within 60 days from time of injury. Agreement does not cover death from aeronautic or submarine operation, war service, state of war or insurrection, police duty, violation of law, suicide, bodily or mental infirmity, illness or disease, poisoning, bacterial infection other than as a result of injury. Limit, \$25,000.

Extended Insurance. — Automatic after three years. Non-par. Without cash and loan values.

Grace. — One month (not less than thirty days), without interest.

Incontestable. — After one year, except for non-payment of premium.

Limits. — Ages, 15-65: \$125,000; reinsures over \$20,000 for ages 20-50; over \$15,000 for 15-19 and 51-55; over \$10,000 for 56-66; over \$5,000 for 61-65; accepts reinsurance; minimum policy \$500.

Loans. — After three premiums. Interest 6%, in advance. May be deferred 60 days.

Military Service. — No restrictions.

Non-Forfeitable. — See "Cash Values," "Extended Insurance" and "Paid-up Values." Fractional year's premium increases values proportionately.

Paid-Up Values. — After three premiums, within one month after default. Non-par. Without cash and loan values, but practice to grant them. Fully paid-up policies participate.

Policy in Effect. — Upon delivery of policy and payment of premium while in good health.

Premium Loans. — No provision. See "Loans."

Reinstatement. — At any time, upon evidence of insurability and payment of arrears at 6% per annum.

Reserve Basis. — See "Cash Values."

Residence and Travel. — No restrictions.

Restricted Occupations. — No conditions.

Settlement Options. — Cash, Trust Fund (Interest Payments) at not less than 3½% Limited (2-30 years) and Continuous (20 years certain) Installments. Payments made annually, semi-annually (\$50.42) quarterly (\$25.32) or monthly (\$8.46). Trust Fund and Installments certain participate in excess interest earned. Unless otherwise specified payee may withdraw Trust Fund or commutable values of Installments certain (except under Continuous Installment option, unless good health is shown).

Suicide. — Within one year, sane or insane, liability limited to premiums paid.

Women. — No extra charge. All but Term. Limit for married women \$3,000, and husband must carry equal amount; self-supporting, same as men. Double indemnity granted. Disability granted if single and self-supporting.

†Present interest rate, 5%.

MATURITY OPTIONS

The dividends on which the tables below are based, are in accordance with the 1924 dividend scale. These tables show the number of years required under the Accelerative Endowment, the Accumulation and the Addition plans for the maturity option to become available, upon the assumption that all dividends are applied upon the same plan. They merely show what would be accomplished if the 1924 dividend scale were continued in force for the periods of years shown in the tables, upon the assumption that all dividends were applied upon the same plan. Any change in the dividend factors would effect a corresponding change in the maturity option.

The tables illustrate the difference between the three plans. Under the Accelerative Endowment plan, the amount payable in the event of death is never more than the face of the policy, except for the final dividend. Under the Accumulation plan, the dividends are returned with interest. Under the Addition plan, the dividends are used to purchase additional insurance. Since in the event of death the amount payable under the Addition plan is greater than the amount payable under the Accumulation plan, which in turn is greater than that payable under the Accelerative Endowment plan, the maturity option will be available at a later date under the Addition plan than under the Accumulation, and at a later date under the Accumulation plan than under the Accelerative Endowment plan.

Plan), for waiver of premium and payment of monthly income of \$10 per \$1,000, beginning upon proof of total and permanent disability (total disability not obviously permanent regarded as permanent after it has existed three months) and continuing during disability to maturity; no reduction in insurance. Agreement does not cover disability from war service or self-inflicted injury. Limit \$50,000. Payments made to beneficiary if disability results from insanity.

Dividends. — End of second year and annually thereafter. Options: (a) cash; (b) reduce premiums; (c) accumulate at not less than 3%, withdrawable on any anniversary; (d) purchase non-forfeitable participating paid-up additions. (d) is automatic option.

Double Indemnity. — For extra premium, policy will provide during life of policy, for payment of double face of policy in event of accidental death within 90 days from time of injury.
